Friday, February 28, 2020

Keyano Lecture Series: The Aurora Borealis, STEVE, and Citizen Science

**Date and Time:** Friday, February 28 07:00 p.m. - 8:30 p.m.

**Event Location:** Wood Buffalo Regional Library

**Presenter:** Dr. Jean-Pierre De Villiers

From our privileged location in the Regional Municipality of Wood Buffalo, we have a front-row seat at one of nature’s grand spectacles: the aurora borealis. Though the basic physics of the auroral display is understood, it may be surprising to some that the northern lights remain an area of active research and of exciting new discoveries. The phenomenon dubbed STEVE is a prime example of the aurora’s ability to surprise us. The state of knowledge about the aurora and STEVE, and the ongoing role of the public in discovering new phenomena will be discussed.
